Appendix A

MTCES DAILY STUDENT SYMPTOM CHECKLIST

Instructions: Under the guidance provided by the ODH, students MUST undergo a symptom check prior to coming to school or participating in an event. Please check your child's symptoms at home every day for every child attending MTCES. It is recommended that this checklist is printed and posted in a visible location to remind you to complete prior to leaving for school in the morning. If you send your child to school, you are confirming that he/she does not have any symptoms and is feeling well enough to attend school.

Please select Y=yes and N=no and record on the sheet. **If you answer YES to any of the below questions, under the guidance of the CDC, you must stay home until 14 days after your last exposure or at least 10 days have passed since symptoms first appeared.** For the symptom list (cough, shortness of breath or difficult breathing), please look at the symptoms in combination to create your answer of YES or NO. For example, if your child has a runny nose, it may be because of allergies, not a symptom of COVID-19. It is recommended that you contact your health care provider if you have questions.

Take your temperature. Is your temperature less than 100°F (without fever-reducing medication)? If your temperature is more than 100°F, you may NOT come to school.	No	Yes
Have you been exposed to someone with COVID-19 in the past 14 days?		
Do you feel ill?		
Do you have: • Cough • Shortness of breath or difficulty breathing • Chills • Fatigue • Muscle or body aches • Congestion or runny nose • Sore throat • Headache • New loss of taste or smell • Nausea • Vomiting (unidentified cause, unleased to anxiety or eating) • diarrhea
